

**STEAMSHIP TRADE ASSOCIATION**  
OF BALTIMORE, INC.

## Unacceptable PPE Safety Vests

Below are examples of improper and inappropriate Safety Gear. They DO NOT meet ANSI Class 2 High Visibility requirements and will not be allowed to be used as Proper PPE at any Port of Baltimore Terminals for any STA Member Employer Company.

The minimum requirement for Proper PPE is a Full ANSI Class 2 High Visibility Safety Vest and Steel Toe Boots, in addition to a Hard Hat or Bump Cap. Proper Safety vests can be provided if needed by The Steamship Trade Association and Port of Baltimore Companies.
